

# Danish Sheik

Software Engineer | Full Stack Developer | Email : [danishfromwork@gmail.com](mailto:danishfromwork@gmail.com) | Phone: +91 7439650855 | [LinkedIn](#)

---

## PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 3 years of experience building scalable web applications. Strong expertise in Node.js, React, Next.js and the Shopify Plus ecosystem. Experienced in leading teams, stakeholder communication, backend integrations, and implementing automation using tools like Zapier, and Shopify Flow. Ability to deliver end-to-end production-ready systems.

---

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), TypeScript, SQL (PostgreSQL/MySQL), Python, Java, C.

**Frontend:** React.js, Next.js, Redux, HTML, CSS, SCSS, Tailwind CSS, ShadCN, Bootstrap.

**Backend:** Node.js, Express.js, REST APIs, GraphQL, JWT Authentication, WebSockets.

**Databases:** PostgreSQL, MySQL, Firestore, MongoDB.

**Shopify:** Shopify Plus, Liquid, Theme Development, Custom Logic, Checkout UI Extensions, Shopify Flow.

**Tools:** Git, Docker (Basics), Postman, Jest, Zapier.

**Concepts:** DSA, System Design Fundamentals, SOLID Principles, Agile.

---

## PROFESSIONAL EXPERIENCE

**Codilar Technologies : Software Engineer** | January 2025 – Present

- Led end-to-end development of 2 large-scale B2B commerce platforms, delivering projects independently.
- Contributed to 6+ Shopify projects spanning theme customization, features, integrations, and production deployments.
- Managed a team of 4 developers for a multi-region Shopify Plus implementation (USA, EU, Asia), driving architecture decisions, task delegation, sprint planning, and stakeholder communication.
- Designed and implemented enterprise-tier functionality such as B2B features and trade-in calculator workflows on Shopify's Growth plan.
- Built scalable commerce solutions by translating business requirements into implementations, led client demos, handled live production issues, and authored technical documentation
- Improved storefront performance by refactoring legacy scripts, resolving third-party conflicts, optimizing Core Web Vitals.
- Mentored junior engineers through code reviews and guidance on Shopify and Node/React best practices.

**Genius Consultants Ltd : Web Developer** | December 2022 – October 2024

- Built and maintained enterprise HRMS and Payroll interfaces integrated with .NET backend systems for international clients (Dubai project).
  - Engineered data-heavy dashboards, centralized notification systems, and interactive grading modules using HTML-CSS, JQuery, JavaScript and Bootstrap.
  - Refactored legacy jQuery codebases, resolving architectural defects in appraisal and exit management workflows.
  - Implemented dynamic PDF generation modules for tax invoices and compliance documentation.
- 

## PERSONAL ROJECTS

**Collaborator Canvas : Real-Time Collaborative Whiteboard (React, Node.js, Socket.io)**

- Built multi-user real-time drawing platform with room-based session management. Implemented WebSockets for bi-directional communication and low-latency synchronization. Designed backend session logic to handle user joins/leaves and state persistence.

**Cine Reviews : Movie Review Platform (Next.js, SQL, Tailwind)**

- Implemented role-based authentication (User/Admin) with protected dashboards. Designed relational SQL schema for users, movies, reviews, and watchlists. Integrated event-driven email notifications for new content updates. Used SSR in Next.js for SEO optimization and faster initial load.
- 

## EDUCATION

**Bachelor of Computer Applications (BCA)**

Meghnad Saha Institute of Technology, Kolkata | 2019 – 2022
