Core Concepts: Data Structures & Algorithms, System Design Fundamentals, SOLID Principles, Agile Methodologies
Tools: Git, Docker, Postman, Jest, Zapier
AI-Assisted Development: Cursor, Windsurf, AI-driven development workflows

PROFESSIONAL EXPERIENCE

Codilar Technologies : Software Engineer | January 2025 – Present

- Led end-to-end development of 2 large-scale B2B commerce platforms, delivering projects independently.
- Contributed to 6+ Shopify projects spanning theme customization, features, integrations, and production deployments.
- Managed a team of 4 developers for a multi-region Shopify Plus implementation (USA, EU, Asia), driving architecture decisions, task delegation, sprint planning, and stakeholder communication.
- Designed and implemented enterprise-tier functionality such as B2B features and trade-in calculator workflows on Shopify's Growth plan using tools like Zapier, Shopify Flow, Webhooks.
- Built scalable commerce solutions by translating business requirements into implementations, led client demos, handled live production issues, and authored technical documentation
- Improved storefront performance by refactoring legacy scripts, resolving third-party conflicts, optimizing Core Web Vitals.
- Mentored junior engineers through code reviews and guidance on Shopify and Node/React best practices.

Genius Consultants Ltd : Web Developer | December 2022 – October 2024

- Built and maintained enterprise HRMS and Payroll interfaces integrated with .NET backend systems for clients.
- Engineered data-heavy dashboards, centralized notification systems, and interactive grading modules using HTML-CSS, JQuery, JavaScript and Bootstrap.
- Refactored legacy jQuery codebases, resolving architectural defects in appraisal and exit management workflows.
- Implemented dynamic PDF generation modules for tax invoices and compliance documentation.

PERSONAL ROJECTS

Collaborator Canvas : Real-Time Collaborative Whiteboard (React, Node.js, Socket.io)

- Multi-user drawing platform with room-based sessions and real-time synchronization using WebSockets for low-latency collaboration

Career Bio Optimizer AI : AI-Powered LinkedIn Profile Generator

- AI-driven LinkedIn optimizer that generates high-converting headlines, SEO-friendly bios, targeted skill tags, and actionable growth tips based on user career goals.

Cine Reviews : Movie Review Platform (Next.js, SQL, Tailwind)

- Full-stack movie review platform featuring role-based authentication, structured SQL data modeling, automated email notifications, and SEO-optimized server-side rendering.

EDUCATION

Bachelor of Computer Applications (BCA)
Meghnad Saha Institute of Technology, Kolkata | 2019 – 2022
